**DO YOU HAVE
WILDLANDS OR
WORKING LANDS?**

**Let us help you make the
most of them....**

Experienced.....our staff includes an outstanding combination of ecologists and managers who share your interests in wildlife and the land and are committed to producing a property management plan that meets your objectives.

Protect the *heart* and *soul* of your Montana property by ensuring the future of its spectacular wildlife and natural resources..... while also enhancing your outdoor experiences.

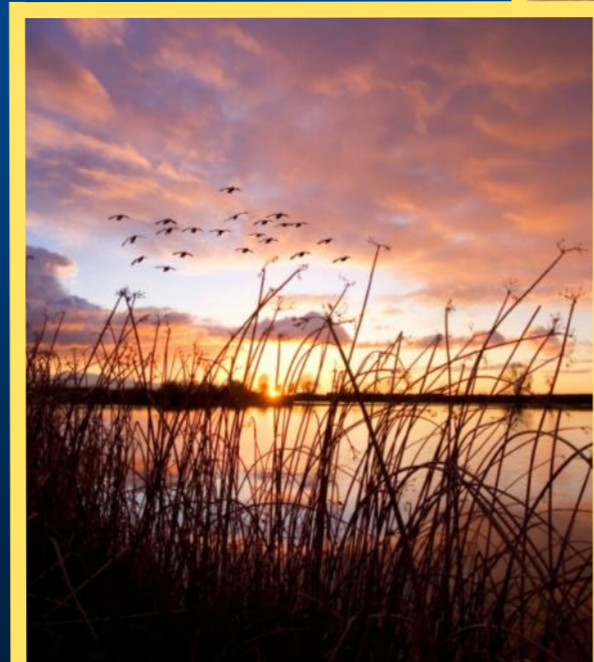

CWS is your one-stop source for all your land management needs. Our staff includes some of the top leaders in their fields, who are dedicated to providing unparalleled expertise in a broad array of wildlife, conservation, and land management services. We will work closely with you to identify your objectives and provide effective planning and management to achieve the desired results.

A sample of **CWS's** broad array of consulting, planning, and implementation services:

- ◆ Wildlife habitat restoration and management
- ◆ Wildlife population management
- ◆ Forest restoration and management
- ◆ Fire hazard reduction
- ◆ Range and ranch management
- ◆ Wetland, stream-side, and shoreline management
- ◆ Conservation easement documentation
- ◆ Invasive weed management
- ◆ Property development planning
- ◆ Recreational land management
- ◆ Road, fence, and trail design and construction
- ◆ Inventories and surveys
- ◆ GIS mapping and aerial photographs

CWS's extensive knowledge of Montana's wildlife and natural ecosystems can help to ensure the future enjoyment of your property while maintaining the beauty and vitality of Montana's treasured natural resources. Our staff can also help offset the costs of many restoration or management activities by applying our considerable knowledge and experience with federal, state, and other landowner assistance programs.
